

THE PRIME MINISTER

10 DOWNING STREET  
LONDON SW1A 2AA

I would like to send my congratulations for the production and launch of the music video, raising awareness of mental health in South Asian communities, celebrating World Mental Health Day.

I am proud to see that this production, inspired by a British Asian Trust case study, will further lift the silence on mental health. It is important that we have those difficult conversations about mental health in our communities now more than ever and I extend my wholehearted support to all those involved.

I would like to congratulate the artists Rekesh Chauhan and Shree Savani, along with the British Asian Trust, for their tremendous efforts in this production. I wish them the very best.
